Let's Save Food!

Problems:

Have you ever thought about wasting food? Well, wasting food caused economic loss which leads to a big problem such as waste of lands, water, and animals.

Solution:

In order to solve the problem, we could donate some food, or share some food to our neighborhood, or community.

Conclusion

It is very important to save food for our community, it will be a problem for the environment. But if we continue these actions, it will improve for our city and other communities
